Lovan USA proudly introduces the Lovan Nexus Plasma/LCD Lift. The Nexus Lift is manufactured with high gauge steel with an extremely small profile. The Nexus Lift comes fully assembled and ready to "Plug and Play".

The Lovan Nexus Lift is one of the most versatile in the industry because of its compact design and lifting power. It can be used in homes in any room, and can be used to lift a television, or a cappuccino machine or mini bar (the possibilities are limitless).

Because of the strength and reliability of our lifts, they can be used in commercial settings as well. Whether at the office to raise a plasma or LCD television from a mobile cabinet, in a hotel room or in a home office, the Lovan Nexus Lift offers maintenance-free dependability and elegance.

Lovan Nexus Lifts are perfect for recreational vehicles, yachts and aircraft as well. They are solid and reliable and perform well even in a moving vehicle.
